

EXHIBIT A

Due to technical limitations (Due to the addition of two new nuclear reactors which will require a construction staff of an estimated 4000 workers and the addition of 1000 permanent SCE&G plant workers we will require 2000 new DID numbers. This number was determined by comparison of the number of workers currently employed by SCE&G at our existing nuclear plant whom we are supporting with 1000 DID numbers. in our existing phone system (VCS Summer Nuclear- Avaya G3SI), we request (2000) phone numbers that meet the requirements set forth in the categories noted below.

We request that the numbers reserved meet one of the following categories:

- 1). The lead DNIS digit be 8 (i.e. NPA-NXX-X or NPA-NXX-XX) or at least not be -0 (NPA-NXX-0) or -9 (NPA-NXX-9).

We have ☐ 3-digit, ☐ 4-digit, or 5 (x)-digit internal dial plan.

Or

- 2). Request the DNIS digits match my existing extension list 85500 to 89999 because we are currently supporting 24 existing telephone switches and this is the only range which does not conflict with our existing dial plan.

The physical address where numbers are to be utilized:

574 Stairway Road (Physical Address/cannot be a P.O. Box)

Jenkinsville, SC 29065 (City, State, ZIP)

803-345-4000 to 4999 (Current Phone Numbers)
